

KS2 Easter Holiday Activities

It's the Easter holidays and, for many of you, they are very different this year!

Here is a list of activities to keep you busy over the next 2 weeks – pick and choose what you like the look of. They are designed for KS2 in general (most can be adapted even lower), so the whole family can get involved.

There is no expectation for you to complete these tasks, but feel free to send examples to your teacher, just like you have been doing over the past 2 weeks.

Some of these activities do require a printer but there are many that could also be displayed on a screen.

Have a great Easter (and eat lots of chocolate)!
