

Additional Maths

The main focus for the Oak Academy Maths this week is numbers within 20. So if you feel your child is confident with all their numbers to 20 and good with telling you one more and one less from any number between 1-20 then this extra Maths is for you this week.

There is some addition work and some work on ordinal numbers eg 1st, 2nd, 3rd etc.

Ordinal numbers could also be explored practically: line up your teddies, cars, other toys etc. and make a label for them to show their order.

1st

2nd

3rd

4th

5th

Can you order your toys in a line up to 20?

Another part of our Maths is learning the order of the days of the weeks (some of you may be able to do this) and learning the order of the months.

Challenge: Can you find out which months are in each season?
