

## The Animal Kingdom

Think of any creature e.g. bugs, birds, animals, fish, etc. The creature you just thought of belongs to a group called the *Animal Kingdom*.

The Animal Kingdom is divided into two groups: invertebrates and vertebrates.

**Invertebrates** – All animals without backbones are called Invertebrates. Earthworms, starfish, squid and snails fall in this category.

**Vertebrates** – All animals with backbones are called Vertebrates.

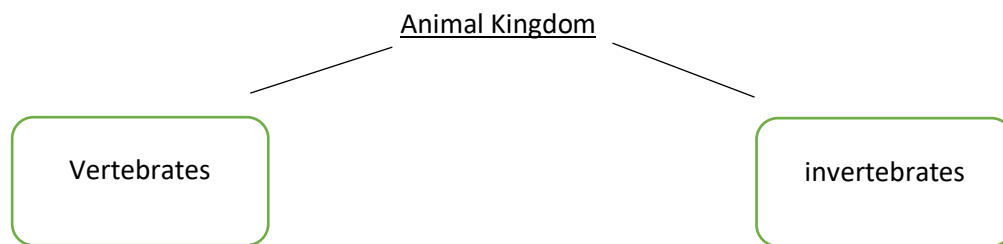

You can find more information using the following website:

<https://www.bbc.co.uk/bitesize/topics/zn22pv4/articles/zp6g7p3>

Task:

Using animals of your choice, sort them into two groups (vertebrates and invertebrates).

You can use the Internet and the diagram below to help you.
