Year 4 - Term 3

I know the multiplication and division facts for the 9 and 11 times tables.

By the end of this half term, children should know the following facts. The aim is for them to recall these facts instantly.

$9 \times 1 = 9$ $9 \times 2 = 18$	$9 \div 9 = 1$ $18 \div 9 = 2$	$11 \times 1 = 11$ $11 \times 2 = 22$	$11 \div 11 = 1$ $22 \div 11 = 2$	
$9 \times 3 = 27$ $9 \times 4 = 36$ $9 \times 5 = 45$ $9 \times 6 = 54$	$27 \div 9 = 3$ $36 \div 9 = 4$ $45 \div 9 = 5$ $54 \div 9 = 6$	$11 \times 3 = 33$ $11 \times 4 = 44$ $11 \times 5 = 55$ $11 \times 6 = 66$	$33 \div 11 = 3$ $44 \div 11 = 4$ $55 \div 11 = 5$ $66 \div 11 = 6$	Key Vocabulary What is 8 multiplied by 6? What is 6 times 8?
$9 \times 7 = 63$ $9 \times 8 = 72$ $9 \times 9 = 81$	$63 \div 9 = 7$ $72 \div 9 = 8$ $81 \div 9 = 9$	$11 \times 7 = 77$ $11 \times 8 = 88$ $11 \times 9 = 99$	$77 \div 11 = 7$ $88 \div 11 = 8$ $99 \div 11 = 9$	What is 24 divided by 6?
$9 \times 10 = 90$ $9 \times 11 = 99$ $9 \times 12 = 108$	$90 \div 9 = 10$ $99 \div 9 = 11$ $108 \div 9 = 12$	$11 \times 10 = 110$ $11 \times 11 = 121$ $11 \times 12 = 132$	121 ÷ 11 = 11	

They should be able to answer these questions in any order, including missing number questions e.g. $9 \times \bigcirc = 54$ or $\bigcirc \div 9 = 11$.

Top Tips

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact family of the day. If you would like more ideas, please speak to your child's teacher.

- Look for patterns These times tables are full of patterns for your child to find. How many can they spot?
- Use your ten times table Multiply a number by 10 and subtract the original number (e.g. $7 \times 10 7 = 70 7 = 63$). What do you notice? What happens if you add your original number instead?

e.g.
$$7 \times 10 + 7 = 70 + 7 = 77$$
)

What do you already know? – Your child will already know many of these facts from the 2, 3, 4, 5, 6, 8 and 10 times tables. It might be worth practising these again!
