

Year 3, Term 5

Science

We will be learning all about plants – roots, stems, leaves, flowers and seeds. We will be looking at what plants need to grow and how they make their own food.

Computing

We will be creating video trailers for our favourite books – can we persuade you to buy a copy?

In online safety, we are looking at the rules of social media and understanding why they are in place.

PE Cricket

Outdoor Adventurous Activities – learning about teamwork, problem solving, map reading and orienteering

English

Our book this term is Treasure Island. We will be writing formal letters to apply for a job on a pirate ship, writing instructions about how to catch a pirate and writing adventure stories.

RE

Our topic is Kingdom of God. We will explore the big question: When Jesus left, what was the impact of Pentecost?

DT

Our project is to design and build a 3D model of a castle.

History

We will be heading back in time, looking at the dark ages, the time after the Romans when the Anglo-Saxons and the Vikings were fighting over Britain.

Maths

We will continue to learn about time before moving on to addition and subtraction with money, followed by further learning about multiplication and division.

Music

We will be continuing our theme of Vikings and learning a song and actions to perform.

French

We will become French transport language detectives, learning about travelling the world.

PSHE

We will be looking at money – how to budget, ways of paying, spending and saving, jobs and careers.
