Year 2 Term 2

Computing: Algorithms and Debugging

In this unit, the children will explore algorithms and debugging through unplugged activities and online programming games.

Art

The children will study art by Andy Goldsworthy and other artist who use their environment as inspiration. They will collect things that catch their eye in the school grounds and produce art work with them. They will also do observational drawings and use a range of medias.

Maths

Addition and Subtraction

We will be adding and subtracting ones, multiples of 10 and 2-digit numbers to other 2-digit numbers.

English

The children will read texts such as The Snail and the Whale, as well as The Secret Sky garden. They will look at word classes, types of sentences. They will be writing letters, diaries and narratives.

Music

The children will continue their musical journey with Miss Chambers by exploring rhythm and stick notation.

PSHE

How can I build safe, kind and caring relationships with others? The children will recognise how families and communities can be similar and different. Pupils will learn about kindness, respect and positive relationships

PE

The children will be taught by Tom this term, with a focus on Cricket.

Science - Materials

The children will be learning about the properties of different materials and investigate why they are chosen for their purposes. There will be a focus on the use of scientific vocabulary too.

RE - Universal

Our big question this term is: How should we care for others and the world, and why does it matter?

Geography

Children will look at what some of the UK's features and landmarks are. They will name and locate the world's oceans and draw human and physical features on a map. We will go on a walk around New Romney and then we will draw a map of the local area.
